

Dear Mike:

It was such a pleasure to meet you today in Ellicott City. There must have been a celestial alignment of immense proportions to have brought two McKenzie relatives, from different parts of the country to the same place at the same time.

I have sent you an up-dated version of my tree from the old word processor. This one is more current then the one that I gave you. There is however less raw data than what I have on Ancestry. It is much easier to post information on Ancestry then type it again on the processor, so I have about given up that task. The main reason for sending this version is to show the sources on the last two pages.

My direct line is in bold type, but of course you must disregard first page, as I now am aware of changes that need to be made on my end. It will be interesting in the coming days to finally nail down "my" Aaron one way or the other. I am not concerned about being right or wrong, but more about being correct. Just to let you know, I try for the most accuracy when dealing with family who are closest to me. The further removed from my direct line the more inclined I am to take a consensus as fact. Truthfully, I don't have the time or energy to ferret out every detail on every person that is not in my direct line of descent.

Well, I'm sure that we will be in touch in the future, and I look forward to sharing anything that I have discovered.

A handwritten signature in dark ink, appearing to read "Don", with a long, sweeping horizontal line underneath it.
